

Supplemental Information: Extended Table Results

The Long-Term Effects of Neighborhood Disadvantage on Political Behavior: The “Moving to Opportunity” Experiment

This document presents full regression results in tabular form for the models presented in the main text and appendix of “The Long-Term Effects of Neighborhood Disadvantage on Political Behavior: The “Moving to Opportunity” Experiment” (Elder, Enos, and Mendelberg 2023). Explanations of each model are available in the main text or appendix section where the model’s results appear.

9 Figure 5 (main text) and Figure A6 (appendix)

Figures 5 and A6 presents estimates of treatment effects for various subgroups of MTO participants. Figure 5 shows the effects of the experimental treatment, and Figure A6 shows effects of the section 8 treatment. The tables in this section show the full model results for each subgroup.
